THE APPLICATION.

At the meeting yesterday the Board of Control made formal application for the island through Dr. Wertenbaker, While no decision was reached as to the disposition of the island, it was clearly the sense of the meeting that the island be divided into two parts, one part to be used by Norfolk and the other by Portsmouth. It is not presumed that Berkley will take any part in the acquiring, control and equipment of the pest station, since no action has been taken by that municipality. There are now five buildings on the island and only a nominal appropriation will be required to fit up the pest station, and of these five buildings it is proposed that Norfolk shall have three and Portsmouth two.

While there will be a separation of the Norfolk and Portsmouth hospitals, the entire island will be under the same general regulations.
